

Genetic Survivor

Scenarios

Part 2: Roll to Determine Your Environment

Roll a die (or use a spinner) to randomly pick scenarios. Roll separately for each trait. All of these scenarios together will make a future environment where you and your descendants will live.

Only survivors have a chance to pass down their genes!

Trait: Hairline shape

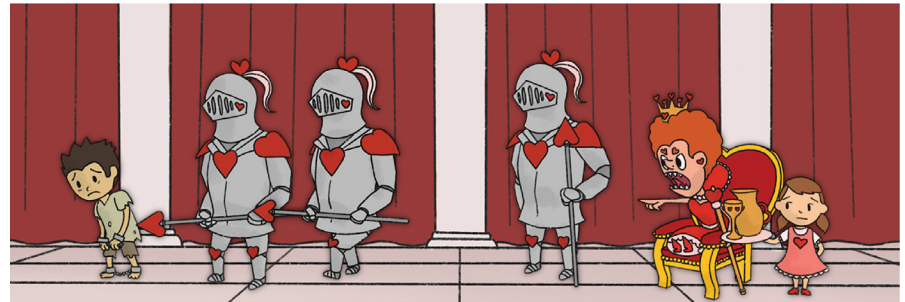

Does your hairline come to a point in the middle of your forehead?

Vampire Apocalypse  or 

The vampires have pointed hairlines, like Dracula. If you do too, the vampires think you're one of them. But if your hairline is straight, they attack!

Nightmare in Wonderland  or 

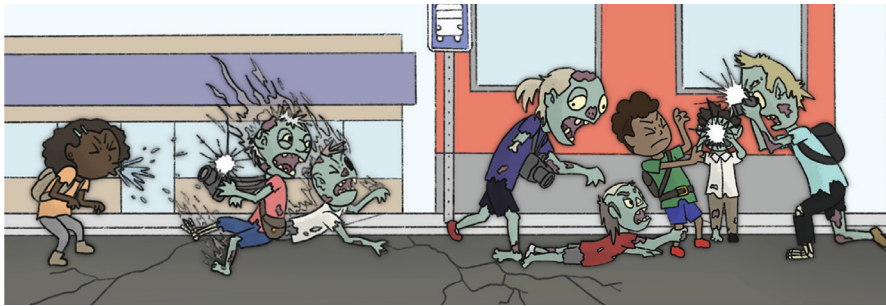

The Queen of Hearts wants no one but her to have a heart-shaped face. If your hairline is straight, you're safe. Otherwise, it's off with your head!

Neither of these things happens  or 

Trait: Photic sneeze

Does bright light make you sneeze?

Zombie Paparazzi or

Complete with bright flashing cameras, they come to eat the brains of all yummy humans. Their one deadly weakness is exposure to human sneeze spray.

Blind Desert Stalkers or

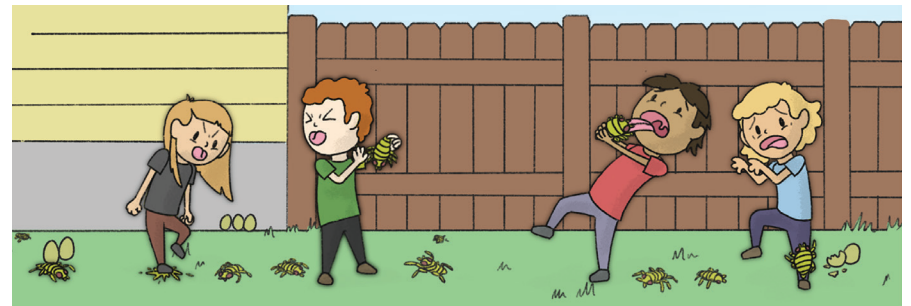

Sneezers alert the stalkers to their presence. Only the non-sneezers avoid getting gobbled up.

Neither of these things happens or

Trait: Tongue rolling

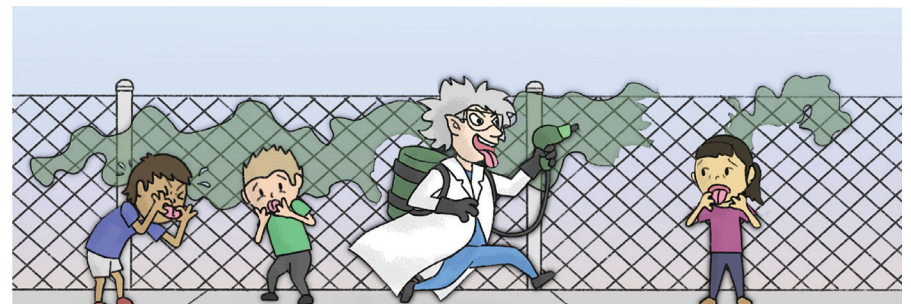

Can you roll the edges of your tongue together to make a tube?

Tongue Parasites or

If you can roll your tongue, these deadly tongue parasites can't attach. Sadly, non-rollers are doomed.

Lingua Adherens or

An evil scientist who was teased in middle school for not being able to roll his tongue created an airborne virus that causes taste buds to stick together. Only non-tongue-rollers will still be able to eat.

Neither of these things happens or

Trait: Dimples

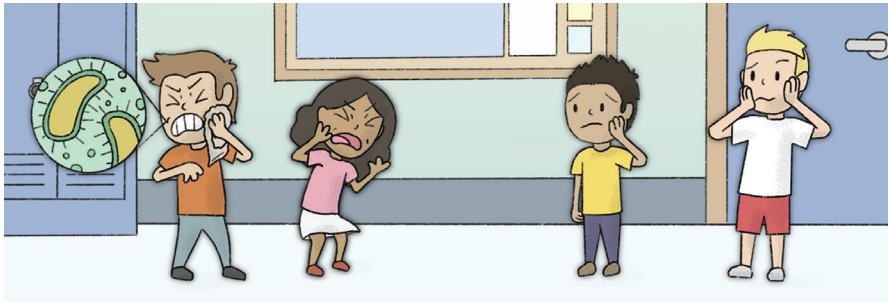

Do you have dimples in your cheeks?

Attack of the Killer Grandmas or

Only those with dimples are safe from attack. Even killer grandmas are a sucker for cuteness.

Cheek-Eating Bacteria or

A deadly strain of bacteria is resistant to every antibiotic. They get caught in dimples and you cannot wash them off. Only the dimple-free are safe.

Neither of these things happens or

Trait: Height

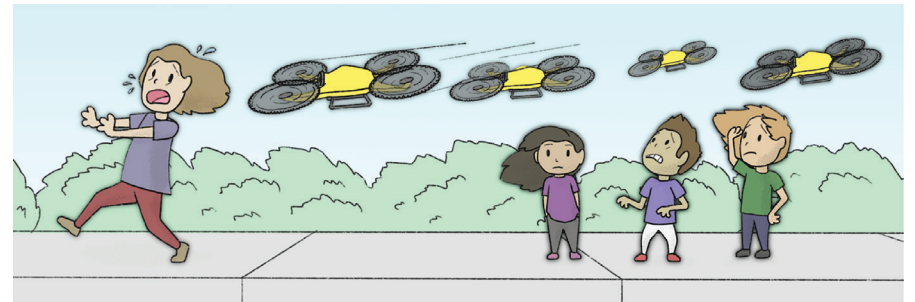

Are you at least 5'6" (168 cm) tall?

PermaSmog or

People who are at least 5'6" (168 cm) tall can breathe above the layer of deadly pollution. But if your head is in the fog, your days are numbered.

Mower Bots Gone Wrong or

Robots we made to mow lawns are revolting. They hover 5'6" (168 cm) above the ground and use their blades to dispense with anyone in their range. If you're below that height, they fly on by.

Neither of these things happens or
